Mount 1070

Being a student at M.S.J. these past four years has taught me a feeling of community, of belonging and of friendship. In eighth grade we worshiped high school students. We longed to walk the halls of M.S.J., to play football, to go to pep-rallies, to know that everything there was ours and that we belonged there.

As Freshmen, we came with our minds open, ready to grasp everything in sight. The next two years were spent sorting out everything we took in, and also getting to know ourselves a little better.

Because of the size of M.S.J., the personal relationships between classmates and faculty are ones of friendship.

As a senior and a soon to be alumnus, I have come to know myself, my friends, and to know I am not just a part of M.S.J. but that M.S.J. is a part of me. The memories of the teachers and the kids, both of which are great, and of everything that I have done, will long be remembered.

I finally realized one day why it would be so hard to leave M.S.J.. I can sum it up by saying that at M.S.J. we get something besides just an education. We find the freedom to be creative, to grow, to love, to laugh, and to build up a security in a place where we can be ourselves. But suddenly we're going to leave this place where our roots are and move on. The thought is scary but we all are capable of handling it now. It will be one more experience that will help us to grow.

I hope that everyone in our class loved M.S.J. as much as I did. I also hope they will continue to love it and support it so that other kids will be given the same chance we were so lucky to have had.

In closing, I hope this yearbook will recapture some of the memories you have from M.S.J.; the parties, the games, the classes and the kids.

Take Care,

*Kevin*

To The Class of 1978,

Graduation can be seen as a series of goodbyes. Goodbye to your friends and classmates of four years. It means goodbye to the teachers who have prepared you so very well for the future that lies ahead of you. It means goodbye to the building on Convent Avenue that you have learned to know so well. It also means goodbye to the security of the familiar.

Graduation also means something much more positive than goodbye. It means hello to friends not yet met. It means hello to the challenges of the future, your future. It means hello to the person you are on your way to becoming, but have not as yet become.

Remember you do not go into that future alone. You have been prepared for the challenge of that future by a fine education, rooted in the gospel and teaching of Jesus Christ. You leave us with the promise of the love and prayers of the entire M.S.J. community.

We are losing you as students, but we welcome you into the larger community of the M.S.J. Alumni Association.

God's peace and blessing be with you always.

*Father Lavalley*

## "DESIDERATA"

Go placidly amid the noise & haste, & remember what peace there may be in silence. As far as possible without surrender, be on good terms with all persons. Speak your truth quietly & clearly; and listen to others, even the dull and ignorant; they too have their story. Avoid loud & aggressive persons, they are vexatious to the spirit. If you compare yourself with others, you may become vain & bitter; for always there will be greater & lesser persons than yourself. Enjoy your achievements as well as your plans. Keep interested in your career, however humble, it is a real possession in the changing fortunes of time. Exercise caution in your business affairs; for the world is full of trickery. But let this not blind you to what virtue there is; many persons strive for high ideals; and everywhere life is full of heroism. Be yourself. Especially do not feign affection. Neither be cynical about love; for in the face of all aridity & disenchantment it is perennial as the grass. Take kindly the counsel of the years, gracefully surrendering the things of youth. Nurture strength of spirit to shield you in sudden misfortune. But do not distress yourself with imaginings. Many fears are born of fatigue & loneliness. Beyond a wholesome discipline, be gentle with yourself. You are a child of the universe, no less than the trees & the stars; you have a right to be here. And whether or not it is clear to you, no doubt the universe is unfolding as it should. Therefore, be at peace with God, whatever you conceive Him to be, and whatever your labors & aspirations, in the noisy confusion of life keep peace with your soul. With all its sham, drudgery & broken dreams, it is still a beautiful world. Be cheerful. Strive to be happy.

You  
start  
slowly,  
gliding easily,  
breaking the silence  
with the soft "shhh...shh..." of your skis  
as they sweep up sprays of powder  
at each turn.  
Here and there,  
the sun catches snow crystals,  
turning them to diamond dust.  
Ever so gently  
the slope steepens,  
drawing you into widening, flowing, sensuous arcs.  
And suddenly, magically,  
you've found the mountain's rhythm!  
You're flying, soaring, feeling your spine tingle, seeing the trees  
rush by in a blur, laughing inside at the incredible feeling  
of freedom and beauty and speed,  
laughing because you just can't believe anything in this world  
could be  
so  
much  
fun.
